

What Makes Cherry Warhead Candy So Awesome (and Crazy!):

- Super Sour at First - It starts off really, *really* sour... like a face-scrunching, eye-squinting kind of sour!
- Turns Sweet After - Hang in there — after the sour blast, it becomes sweet and yummy!
- It's a Flavor Explosion - Like a cherry-flavored firework going off in your mouth!
- Fun Challenge Candy - Can you handle the sour without making a silly face?
- Feels Like a Science Experiment - It's like a tiny flavor tornado spinning on your tongue!
- Popular with Brave Candy Fans - Only the boldest snackers go for Warheads!
- ♂ Great for Dares and Games - Try one with friends and see who lasts the longest!
- Cherry = Classic Flavor - Sweet and fruity once the sour storm calms down.
